

Dr Sara-Jayne Thursby

(E): sjthursby94@gmail.com

Education:

Oct. 2016 – June. 2020: PhD Researcher - Genomic Medicine Research Group. Ulster University.

Thesis: “Bioinformatic analysis of epigenetic effects, particularly changes in DNA methylation, following different interventions.”

Sept. 2012 – June 2016: University of Ulster, Coleraine (First Class Honours).

BSc. (Hons) Biology with Diploma in International Academic Studies (DIAS).

Dissertation: "Bioinformatic analysis of changes in the genome in response to manipulation of the levels of key epigenetic regulators."

Positions & Scientific Appointments:

Dec 2020 - Present:	Postdoctoral Researcher, Johns Hopkins University
June 2020 – April 2021:	Postdoctoral Researcher, Ulster University/Public Health Authority of Northern Ireland
Oct 2016 – June 2019:	Postgraduate Teacher, Ulster University

Skills Profile:

- Responsible for bioinformatics analysis of next generation sequencing and array-based datasets using:
 - Cloud-computing environments
 - R Statistical Platform,
 - Python
- Facilitates teaching and supervision of undergraduate, PhD students and Postdoctoral Fellows unfamiliar with bioinformatics
- Streamlined data-processing of array and NGS analyses
- Excellent at working as part of a large research group and independently
- Experience in Next Generation Sequencing analysis including variant calling, RNA-seq, WGBS, ChIP-seq, Single Cell multiome
- Fluent in the R programming language.
- Experienced in Unix, Python, Java, HTML, PHP, MySQL and AWS.
- Excellent understanding of bioinformatics and proteomic data manipulation tools such as, Galaxy, UCSC and NCBI genome browsers, GATK, BWA, PICARD
- Co-creation of new tools and documentation for www.usegalaxy.org
- Experienced in machine learning, built end-to-end machine learning workflows for predictive modeling, including data preprocessing, feature engineering, hyperparameter optimization, and model evaluation.

Research Grants:

- AACR General Meeting-Barbara Campbell Creighton Scholar-in-Training Award (\$1500)
- Johns Hopkins Office for Cancer Research Education Training and Education Coordination Travel Award (\$750)
- AACR Scholar in Training Award (\$500)
- Galaxy Community Fellowship Award (£1600)
- Genetics Society Training Grant (£1000)
- Cancer Translational Research Group (£1000) – for the Biomed Sciences Postgrad Society
- Doctoral Researcher Initiative (£500) – for the Biomed Sciences Postgrad Society
- ‘WhyR’ Conference Grant (£450)

Oral/Poster Presentations at Conferences:

- Oral presentation: AACR General Meeting (2026)
- Oral & Poster Presentation: AACR DNA Methylation, Clonal Hematopoiesis and Cancer Conference (2025)
- Poster Presentation: American Association For Cancer Research (2024)
- Oral Presentation: Epigenetics in Health and Disease Workshop (2019)

- Oral & Poster Presentation: Galaxy Community and Open-Source Bioinformatics Conference (2018)
- Poster Presentation: European Alliance for Personalized Medicine (2018)

Extracurricular:

- Instructor NIH FEAS Epigenetics (BIOL 039)
- Nominated for 2020 Postgraduate Student of the Year
- International Leadership & Management Award completed to Level 5
- Peer Reviewer for Genomics, Epigenetics, Scientific Reports
